DETAILED ACTION

Claim Objections

Claim 22 is objected to because of the following informalities: Reword preamble as follows; "Computer readable storage media embodying a program of instructions executable by a processor to perform steps comprising: Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claim 1-22 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

Claims 1, 11, 21 and 22 recite here in part

"wherein the pre-determined pattern further includes within the cycle at least a partial overlap between a transmission portion and a receiving portion of each combination of two nodes from the group comprising the network node and the plurality of other nodes."

The specification is silent with respect to *"cycle at least a partial overlap between transmission portion and a receiving portion of each combination of two nodes from the group comprising the network node and the plurality of other nodes"*.

Appropriate correction is required.

Response to Arguments

Applicant's arguments with respect to claims 1-22 have been considered but are moot in view of the new ground(s) of rejection.

With respect to Objection to claim 22, Applicant fails to amend the claim as suggested in the previous Office Action and therefore the Objection is maintained in this Action.

With respect to 35 USC 102 (e) Rejection, Examiner withdraws the Rejection to claims 1-22 in light of applicant's amendments.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
